Mesa Biological Indicators

Liquid Submersible SCBI for Low Temperature Steam

SterilAmp® II "5230" is a compact, self-contained ampoule biological indicator for monitoring industrial low temperature (110 - 118 °C) steam sterilization of liquids in small containers.

72-hour results

- Small, conveniently-shaped ampoule
- No laboratory required
- Dramatic color change
- Packaged with 10 negative controls

26mm x 6.5mm

PASS FAIL

SterilAmp® II "5230" contains a specially formulated culture medium that turns a dramatic yellow when spores grow, providing easy visual confirmation of sterilization within 72 hours, without the need for difficult and time-consuming laboratory work.

Storage

Refrigerate at 2-8 °C.

Certification

SterilAmp[®] II 5230 biological indicators are traceable to a recognized culture collection and certified for population, D-value, z-value, Fo value, and performance.
